Instructions for Administering Assessments

1. Ensure that each student has a sharpened pencil and a clear workspace. Instruct students to put away all books, notebooks and other school materials.
2. Ensure that the classroom environment is free from noise and other distractions. Close the door if possible.
3. Read aloud all instructions from the Summative Assessment booklet.
4. Inform students how long they have to complete the test. At the beginning of the test, write the start and end time on the board.
5. You may read the questions aloud or explain their meaning in different words if necessary, without giving clues to the answer.

Note on Marking XSEED Summative Assessments

XSEED Summative Assessments are designed to measure students' ability to apply concepts and skills and express themselves in an organised way. Because of the open-ended nature of some questions, the corresponding answers given in this guide represent samples only. In cases where acceptable answers may vary, it will be clearly indicated in each question along with the detailed criteria to assess answers and assign marks. Assign marks for language errors only if the criteria states so.
